The Aesculap Academy is one of the leading medical forums for everyone who is professionally, passionately and ambitiously committed to people's health. To those medical professionals we offer top quality knowledge transfer based on globally recognized quality criteria using innovative methods and technologies.

DIALOG – DEDICATED TO LIFE.

The Aesculap Academy has its roots in the company B. Braun, which has been protecting and improving people's health for more than 175 years. With our courses, hands-on trainings and symposia we help to honor our parent company's promise of SHARING EXPERTISE.

The courses at the Aesculap Academy offer participants who want to continue to learn in an inspiring environment knowledge transfer and teaching that are adapted to real life: lifelong learning, true-to-life training situations and realistic content for a better life for patients and medical staff.

Dear Colleagues

There is overwhelming evidence that practice change successfully reduces healthcare-associated infections. The implementation of such multidisciplinary and multi-modal programmes however, is challenging.

PREFACE

The objective of this course is to provide theoretical concepts and practice case studies about how to establish infection control programmes in healthcare settings. Participants have the opportunity to visit the University Hospitals of Geneva in the preceding days of the course.

We extend a very warm welcome to you and we look forward to seeing you in Geneva.
